Customer No. 000027683

IN THE CLAIMS:

The following is a clean version of the entire set of pending claims (unamended claims appear in smaller print).

A marked up copy of each amended claim pursuant to 37 CFR § 1.121(c)(1)(ii) appears on the page immediately following the amended claim.

1. (Twice Amended) A speaker apparatus comprising:

a speaker; and

an acoustic box connected to the speaker, the box having a sound reflecting distal wall including a plurality of stepped portions of variable distances from the speaker, each stepped portion being a different distance from the speaker than each other stepped portion, and each stepped portion being substantially parallel to the speaker.

July.

- 2. The apparatus as defined in claim 1 wherein the speaker is in a snap-fit engagement with the acoustic box.
- The apparatus as defined in claim 1 wherein the acoustic box includes a plurality of chassis mounting tabs.
- 4. The apparatus as defined in claim 3 wherein the acoustic box includes a chassis mounting clip with a bendable tab.
- 5. The apparatus as defined in claim 1 wherein the acoustic box includes a speaker wire exit opening formed therein.
- The apparatus as defined in claim 1 wherein the acoustic box includes a plurality of speaker mounting ledges.
- 7. The apparatus as defined in claim 1 wherein the acoustic box includes a plurality of speaker retention tabs.

- 8. The apparatus as defined in claim 1 wherein each stepped portion is a different distance from the speaker than each other stepped portion.
- 9. A computer chassis comprising:
 - a chassis wall;
 - a speaker mounted on the chassis wall; and
 - an acoustic box connected to the speaker, the box having a sound reflecting distal wall including a plurality of stepped portions, each stepped portion being of a different distance from the speaker than each other stepped portion, and each stepped portion being substantially parallel to the speaker.
- 10. The chassis as defined in claim 9 wherein the speaker is in a snap-fit engagement with the acoustic box.
- 11. The chassis as defined in claim 10 wherein the acoustic box includes a plurality of chassis mounting tabs.
- 12. The chassis as defined in claim 11 wherein the acoustic box includes a chassis mounting clip with a bendable tab.
- 13. The chassis as defined in claim 12 wherein the acoustic box includes a speaker wire exit opening formed therein.
- 14. The chassis as defined in claim 13 wherein the acoustic box includes a plurality of speaker mounting ledges.
- 15. The chassis as defined in claim 14 wherein the acoustic box includes a plurality of speaker retention tabs.
- 16. The chassis as defined in claim 9 wherein each stepped portion is a different distance from the speaker than each other stepped portion.

Customer No. 000027683

- 17. A computer system comprising:
 - a chassis;
 - a microprocessor mounted in the chassis;
 - an input coupled to provide input to the microprocessor;
 - a storage coupled to the microprocessor;
 - a speaker mounted on the chassis; and

an acoustic box connected to the speaker, the box having a sound reflecting distal wall including a plurality of stepped portions of variable distances from the speaker, each stepped portion being substantially parallel to each other stepped portion.

- 18. The system as defined in claim 17 wherein the speaker is in a snap-fit engagement with the acoustic box.
- 19. The system as defined in claim 17 wherein the acoustic box includes a plurality of chassis mounting tabs.
- 20. The system as defined in claim 19 wherein the acoustic box includes a chassis mounting clip with a bendable tab.
- 21. The system as defined in claim 18 wherein the acoustic box includes a speaker wire exit opening formed therein.
- 22. The system as defined in claim 17 wherein the acoustic box includes a plurality of speaker mounting ledges.
- 23. The system as defined in claim 22 wherein the acoustic box includes a plurality of speaker retention tabs.
- 24. The system as defined in claim 18 wherein each stepped portion is a different distance from the speaker than each other stepped portion.
